Unlock PDF generation in PSPDFKit Server 2021.2

PSPDFKit Server [2021.2](#) comes with support for PDF Generation — the ability to create documents from scratch based on HTML input. You can send HTML documents, stylesheets, and other assets to the [document creation API endpoint](#), and the generated document will be stored on Server.

Check out our [PDF Generation](#) guide to get started and create your first document!

Other changes

This release includes many more improvements. For a full list of changes, check out the Server [changelog](#).

Migrate PSPDFKit for Web

For more information, please take a look at the [PSPDFKit for Web 2021.2 migration guide](#).
