Transitioning to Document Engine: A complete guide

PSPDFKit Server has been deprecated and replaced by [Document Engine](#). To migrate to Document Engine and unlock advanced document processing capabilities, refer to our [migration guide](#). Learn more about these enhancements on our [blog](#).

PSPDFKit Server is distributed as a Docker container. We recommend using Docker Machine, Kubernetes, or native Docker support by a cloud provider like Amazon Web Services, Google Cloud Platform, or Microsoft Azure for deployment in production.
