Explore the benefits of Document Engine

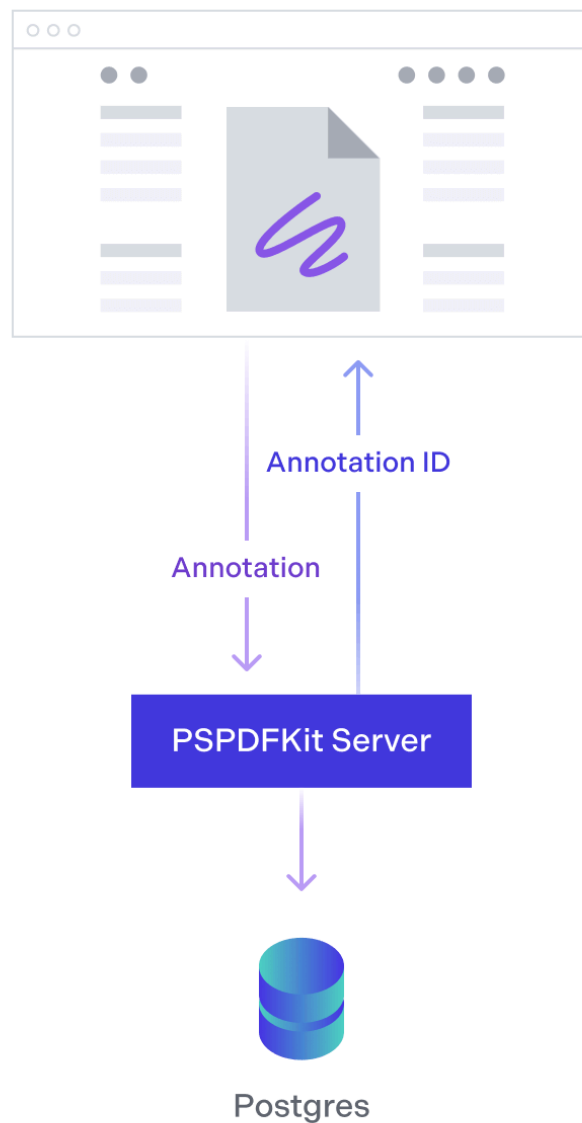

PSPDFKit Server has been deprecated and replaced by [Document Engine](#). To migrate to Document Engine and unlock advanced document processing capabilities, refer to our [migration guide](#). Learn more about these enhancements on our [blog](#).

After you create a document via [upload](#) or [URL](#), you can annotate it via the Web Viewer, Web SDK, or Server APIs. Annotations are automatically persisted in the PostgreSQL database.

ASK AI

PSPDFKit for Web

- 1 PSPDFKit for Web sends new annotation data to PSPDFKit Server, which stores it in the database.
 - 2 PSPDFKit Server returns the annotation ID to the Web SDK.
