Redaction

WINDOWS > GUIDES > REDACTION

UWP redaction library

Permanently redact content within PDF documents. Nutrient UWP SDK offers developers a robust API to automate redaction in any app, as well as a beautiful UI for creating, previewing, and applying redactions.

Key capabilities

Create, preview, and apply

Programmatically or using the UI

True redaction

Permanently remove content (not just obscure it)

ASK AI

Search and redact

For strings, preset patterns, or regex

Client-side

Redact directly in the browser (no server needed)

Customizable

Trigger workflows, adjust colors, and overlay text

Extendable

Add editing, bookmarks, OCR, and more

Credit Card Limit Application

☒ ☐

Essential guides

Introduction to redaction

Redaction is the process of removing image, text, and vector content from a PDF page. This not only involves obscuring the content, but also removing the data in a document within the specified region.
