

UWP

Save a document

WINDOWS > GUIDES > SAVE A DOCUMENT

Save PDFs in UWP

Edited PDFs can be saved to a StorageFile, remote server, and custom data provider. The save operation is performed entirely in the client (no server is required).

Nutrient SDKs are trusted by world's most popular applications, including Autodesk, Disney, UBS, Dropbox, IBM, and Lufthansa. Nutrient's powerful solutions enable seamless integration of PDF editing features into your applications, delivering reliability and efficiency to world-class enterprises.

Key capabilities

- ✧ **StorageFile or remote server** — Save PDF files to any location
- ✧ **Incremental saving** — Improve performance when saving large PDFs
- ✧ **Auto save** — Automatically save edits to the file
- ✧ **Client-side** — Save PDFs directly in the app (no server needed)
- ✧ **Extendable** — Add annotation, signing, editing, and more
