Rendering PDF forms in our UWP viewer

Nutrient UWP SDK supports rendering all PDF form field types defined in the PDF specification.

Form support in Nutrient

A PDF form is similar to a form in real life. Forms allow a user to add information to a preformatted page. Consider the form shown below as an example:

ASK AI

NAME

LAST

FIRST

MIDDLE

SUFFIX

PREFIX

ADDRESS

STREET

CITY

STATE

ZIP

TELEPHONE

HOME

WORK

EMERGENCY CONTACT INFORMATION

PHONE

NAME

RELATIONSHIP

SOCIAL SECURITY NO. (MANDATORY)

SEX

☐ MALE

☐ FEMALE

DATE OF BIRTH

MONTH/DAY/YEAR

EDUCATION (HIGHEST LEVEL AND YEAR)

☐ HIGH SCHOOL DIPLOMA

☐ TRADE CERTIFICATE

☐ COLLEGE - NO DEGREE

☐ ASSOCIATE'S DEGREE

☐ BACHELOR'S DEGREE

☐ MASTER'S DEGREE

☐ PROFESSIONAL DEGREE

☐ PH.D..

☐ OTHER DOCTORATE

EMPLOYEE SIGNATURE

Each highlighted area is called a field, and it's where a user can enter information. The PDF specification has a concept of different form field types that can help in this situation. The table below has an exhaustive list of form field types supported by Nutrient.

TYPE	DESCRIPTION
Text field	Alphanumeric
Checkbox	On/off
Radio button	Selection
Combo box	Dropdown list
List box	Scrollable list
Signature	Unique electronic
Button	Assignment

Licensing

PDF Forms is a separate component in your Nutrient license. Without this feature included in your license, your app won't be able to view or interact with PDF forms. [Contact our Sales team](#) to add this feature to your license, or use a trial license if you want to try out this feature.

Signature form fields and signature form elements require that your license includes either Electronic Signatures or Digital Signatures, or that your license was originally obtained in April 2021 or earlier. If none of these requirements are met, then signature elements will be omitted, and other form elements will be shown.
