Understanding Instant JSON action types

COPY PAGE

Types

This section explains how to use type declarations in Instant JSON records.

The optional keys are specified as follows:

```
{ optionalKey?: value; }
```

To reduce payload size, omit optional keys when their values are undefined.

Action types

Only a subset of all possible annotation actions is supported. These can be triggered when clicking or pressing on a link annotation:

[JSON](#)[JAVASCRIPT](#)

ASK AI

```
// Example of an Instant JSON payload for a `GoToAction` action:  
{  
  "pageIndex": 0,  
  "type": "goTo"  
}
```
